

VA Acquisition Academy (VAAA) Acquisition Internship School (AIS) *Warriors To Workforce (W2W)*

About the Program

The 1 year Warriors to Workforce (W2W) Program offers Veterans with a service-connected disability an opportunity to transition into a new career in the Federal government by applying their military skills and experiences to the Contract Specialist field. The program focuses on their transitional support, mentoring, professional development, and foundational career training activities. Participants complete the program as a cohort, fortified by a built-in support system that mirrors the team environment and camaraderie that they experienced in the military. These relationships create a foundation for a lasting professional network throughout their career. After successful completion of the program, participants advance to the two-year Acquisition Intern Program (AIP) which equips them with the skills and experiences they need to become full-time Contract Specialists. Through the W2W and AIP programs, Veterans are taught in-demand skills and competencies which allows them to continue serving their country as civil servants.

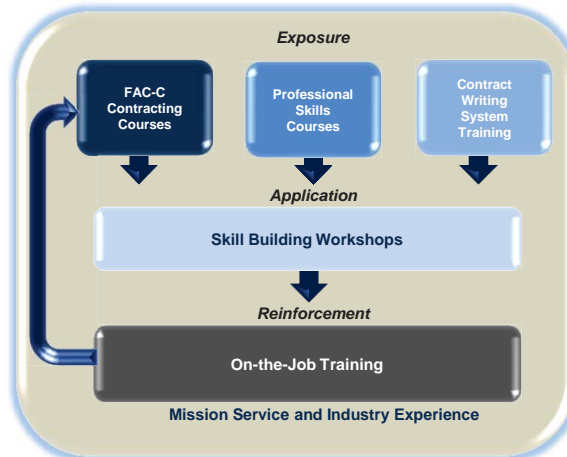

How it Works

W2W Program Components	
Business Education	Instructor led college business courses from an accredited institution
Professional Development	Foundational acquisition and general business training
Peak Performance	Individualized training which provides critical mental skills to enhance personal resilience, self-confidence, adaptability and mental agility
Mission Service	Mission service project organized to give back to the community and connect with and understand the VA mission

Participants are hired as GS-5 federal government employees. The curriculum includes four main components; Business Education, Professional Development, Peak Performance Training and Mission Service. The Business Education component provides the necessary college credits to meet the positive education requirements to enter the Contract Specialist (1102) career field. Participants are eligible to utilize their Vocational Rehabilitation and Employment Service benefits.

AIP Program Highlights

Participants who successfully complete the W2W Program are converted to GS-7 Contract Specialists and matriculate to the AIP where they learn the essential technical and professional competencies for contracting professionals including the requisite training for both the Federal Acquisition Certification in Contracting (FAC-C) and Defense Acquisition Workforce Improvement Act (DAWIA) Levels I and II Certification in an experiential learning environment with real-world work scenarios. Upon successful completion of the AIP, participants are strategically infused into the Acquisition workforce to meet the needs of federal contracting organizations throughout the country.
